## EDUCATION

### Budapest University of Technology and Economics, Budapest, Hungary

- **MSc** in Software Engineering Sep 2018 – Jun 2020
  - Main specialization in AI and NLP
- **BSc** in Mechatronics Engineering Sep 2014 – Jan 2018
  - Degree GPA: 4.79/5.00, Excellent with Highest Honours
  - **Thesis**: Parking Spot Recognition and Visualization with Semantic Segmentation

## PAPERS

- Improving Neural Conversational Models with Entropy-Based Data Filtering May 2019
  - To appear at ACL 2019. Check github [repo](#) and paper [link](#).
- Deep Learning Based Chatbot Models ([paper](#)) Nov 2017
  - My [notes](#) on 150 publications that I have read in the field of deep learning, focusing on dialog agents.
- **Study** of protein circuits using self-developed software ([GitHub](#)) Nov 2016

## AWARDS

- First place at the National Scientific Students' Associations Conference ([paper](#)) Apr 2019
- First place at the Scientific Students' Associations Conference ([paper](#)) Nov 2017
- Second place at the Scientific Students' Associations Conference ([paper](#)) Nov 2016

## EXPERIENCE

### Robert Bosch GmbH, Budapest, Hungary

- Software Engineer, Driver Assistant Division Apr 2018 – Aug 2018  
Continued the work described below as a full-time employee. Collected a much larger dataset and experimented with the [YOLO model](#), with good results, pushing the project to a demo phase.
- Software Engineer Intern, Driver Assistant Division Jul 2017 – Mar 2018  
For my [BSc thesis](#), I built a user interface in OpenGL and OpenCV for selecting parking spots projected on the ground on the real-time feed of a camera. Moreover, I collected and labeled my own dataset, and I researched and trained semantic segmentation models. Please contact me for a copy of my thesis.

### Department of Automation and Applied Informatics, Budapest, Hungary

- NLP Researcher Feb 2018 – Present  
I am a researcher focused on [neural chatbots](#) and student supervisor. I advised an undergraduate student on a [research project](#) related to unsupervised NMT. Currently, I'm supervising several students working on my neural chatbots project ([1](#), [2](#), [3](#)).
- Teaching Assistant Feb 2017 – Jun 2017  
I was a teaching assistant for electrical engineering labs. I helped students complete the lab by explaining the theoretical material and by helping them put together the experiments.

## VOLUNTEER ACTIVITIES

### Budapest Cultural Center, Budapest, Hungary

- Informatics Lecturer Oct 2012 – May 2013  
I taught older people how to use the internet and useful websites like facebook, gmail, google and others.

## TALKS

- Hungarian NLP Meetup: [Neural Chatbots](#) May 2019

## LANGUAGES

- Hungarian, Romanian: Native language.
- English: C1 level (TOEFL iBT: 115/120).
- French: B2 level (Advanced level high school final exam).

## IT SKILLS

- Microsoft Office (Excel, Word, Power Point, Access)
- Mathematica, Inventor, NI LabView, Ansys, R (studied during 1 semester)
- C/C++ (studied during 3 semesters, used in projects)
- Python, Java, Matlab (studied during 2 semesters, used in projects)
- OpenGL, TensorFlow, PyTorch, [Processing](#), LaTeX, Git (self-taught, used in projects)
